Fundraiser Profit Allocation Decision

Process

- Board researched other booster allocation methods
- Board brainstormed and proposed alternate approaches
- Al Waltner took the pulse of some coaches
- Discussed at booster meeting on Feb 12; collected input
- Distributed survey
- Board reviewed survey results and voted

Fundraiser Profit Allocation Decision

Survey Results:

- 13 total responses:
 - 10 written responses (not counting 3 members of Board)
 - 3 oral responses
- 9/10 member groups answered
 - (no response from Wrestling)

Fundraiser Profit Allocation Decision

Survey Results in Summary Favored:

- A **participation-based** fund allocation scheme
- Any portion allocated on basis of **membership** will be based on number of member groups not number of students in groups
- Member groups given the opportunity to **opt in** for participating in a fundraiser or opt out thereby forfeiting shared profits
- Allowing **friends and extended family** to count as a participant in fundraising
- **Recycling** events unanimously for those who voted on specific fundraisers

Fundraiser Profit Allocation Decision

Board Decisions:

- \$1000 of the 1 Green Planet profit will be kept in the umbrella booster operating account for expenses
- 10-90 split of profits
 - 10% of profit distributed equally among member groups
 - 90% of profit based on participation in fundraisers
 - member groups will opt in or opt out (forfeit profit)
 - Opting in – Board assumes full participation by member groups unless otherwise negotiated
- Allocation can be revisited to tailor to fundraising activity
- Friends and extended family can be recruited as fundraiser participants.

Fundraiser Profit Allocation Decision

Board Decisions:

- The allocation model will be applied to both 1 Green Planet and T-bird fundraisers.
- When T-bird fundraiser is closed, Lori Fleming will move money into individual accounts to distribute funds from both fundraisers at same time.

“Community” Fundraising

- Fundraising that blends together with day-to-day activities

1 Green Planet worked because

- it filled a need of the community
- it is environmentally appealing

(Note: Although I have asked for our next recycling event to be earlier in fall, 1 Green Planet coordinator seems to want to keep it in 1st week in December)

- Better leveraging community and internet opportunities
- Need to better market within our greater booster community and then within our greater school community
